Hi Jill, in case I forgot to answer your scheduling question,

Personal Privacy / Ex. 6

The week of 9/5 later in the week would work better for me (9/8 or 9/9 middle of day).

Jill:

With regard to questions in your notes, we (particularly Cheryl) know Bill Peterson and Frances Chan pretty well. Cheryl
Personal Privacy / Ex. 6 but I imagine she could ask them about any additional data next week. In the past, Frances has been a bit reluctant to let data go out that has not been published on, so keep that in mind. I don't recognize the name from Olympic NMR.

Subject: UW and NOAA Data follow-up

Hi all,

I followed up with Simone Alin regarding our data requests of NOAA and UW, and attached are the answers I received (in bold). Basically, we have all the data for right now. The new 2016 data will likely be available later in the fall. So, we should proceed with analyzing what we have, incorporating the one new point in OR. She will be out until the end of Aug, so I suggested that I would try to schedule a meeting in early Sept during which we could run our interpretations by them. Is that timing ok? I know folks are out a lot in Aug. If not, let me know, and we'll push it back. Thanks so much and let me know if you have questions about my notes.

jill
